

# A hand-picked team for your business support

Unlike other VA services, Get Ahead has a 50-strong, nationwide team to draw on. When you ask one of our regional directors for business support, they'll hand-pick one or more virtual experts to deliver the work.

## ONE SIMPLE JOB

**e.g. diary management**  
We will connect you with one expert diary manager to get you organised.

## ONE COMPLEX JOB

**e.g. a website**  
We will assemble a team from our tried-and-tested virtual experts. We'll find you a web developer, graphic designer, copywriter, keyword researcher and anyone else your project needs.

## LOTS OF JOBS

**e.g. develop an email marketing plan, deliver regular social media and keep up with admin**  
Few people are equally good at all these tasks, so we will source a variety of virtual experts to support you. You can manage the outsourced work yourself or we can do it for you.

Remember, when each person delivers the work they do best, you'll see the fantastic results your business deserves. A true expert can deliver the work quickly and brilliantly, ensuring maximum efficiency and value for money.
